# THIS WEEK'S BEER SPOTLIGHT!

## Boulevard Whiskey Barrel Stout

Founded in 1989 in Kansas City, **Boulevard Brewing** is moving beer forward by combining time-honored techniques with modern methods. They are now one of the largest specialty brewers in the Midwest.

Over-the-top, but approachable, this stout is a twist on the classic style with several types of malted barley, rye, oats and wheat. Robust flavors of vanilla, espresso, whiskey, chocolate & roasted grain are balanced by date and plum, with just enough hops to round it out. Roughly one-third of the final blend is freshly brewed; the rest is aged for up to a year (or more) in both first and second use whiskey casks.
